ENTO - Entomology

ENTO 510  Insect Ecology: 3 Credits (3 Lec)

ENTO 516  Biosystematics: 3 Credits (2 Lec, 1 Lab)

ENTO 520  Insect Physiology: 3 Credits (3 Lec)
PREREQUISITE: BIOO 262IN and one of the following: BIOL 340, BIOO 412, BIOO 413, BIOO 433, BIOO 465, ENTO 514, or ENTO 525. The course focuses on a systems physiology approach, emphasizing the principles of insect physiology and insect physiological ecology. Material covered will include the digestive, respiratory, excretory, and circulatory processes, neurophysiology and communication, endocrinology, reproductive systems, muscular systems and locomotion, defensive mechanisms, and water balance. The basic course goal is to provide a strong fundamental understanding of insect physiological function as it relates to the environment. Emphasis will be placed on process comprehension.

ENTO 525  Insect Morphology: 2 Credits (1 Lec, 2 Lab)
PREREQUISITE: ENTO 204 and one of the following: BIOL 310, BIOL 420, ENTO 401, ENTO 432, ENTO 510, ENTO 514, ENTO 516, or ENTO 520. The principles of insect morphology and the evolutionary principles behind the diversity of form and function of the major insect and arthropod groups.

ENTO 590  Master's Thesis: 1-10 Credits (1 Other)
PREREQUISITE: Master's standing
Repeatable up to 99 credits.

ENTO 592  Independent Study: 1-3 Credits (1 Other)
PREREQUISITE: Graduate standing, consent of instructor, approval of Department Head and Dean of Graduate Studies. Directed research and study on an individual basis
Repeatable up to 6 credits.

ENTO 594  Seminar: 1 Credits (1 Other)
PREREQUISITE: Graduate standing or seniors by petition. Course prerequisites as determined for each offering. Topics offered at the graduate level which are not covered in regular courses. Students participate in preparing and presenting discussion material
Repeatable up to 4 credits.
