ETEC - Electronics

ETEC 101   ETEC 101: AC/DC Electronics with Lab: 4 Credits (3 Lec, 1 Lab)
Gallatin College Workforce Program.

ETEC 106   AC Circuit Analysis: 3 Credits (3 Lec)
PREREQUISITE: ETEC 101
COREQUISITE: M 121Q and ETEC 113. (Sp) The intent of this class is to introduce the student to the practical application of alternating current voltage.

ETEC 113   Circuits Lab: 1 Credits (1 Lab)
PREREQUISITE: ETEC 101
COREQUISITE: M 121Q. (Sp) This is the Circuits laboratory that accompanies ETEC 106: AC Circuit Analysis.

ETEC 245   Digital Electronics: 4 Credits (3 Lec, 1 Lab)
PREREQUISITES: ETEC 101, ETEC 106 or 113, and ETEC 250
This course covers the theory and operation of semiconductor logic families and their circuits. Laboratory exercises allow the student to design, implement, and test a wide range of digital circuits using standard logic families and programmable logic devices.

ETEC 250   Solid State Electronics I: 4 Credits (3 Lec, 1 Lab)
PREREQUISITES: ETEC 106 AND ETEC 113. This course introduces students to semiconductor materials, and provides the student with an introduction to basic semiconductor based solid state devices, how these devices operate, and their applications.
