ETEC - Electronics

ETEC 101  ETEC 101: AC/DC Electronics with Lab: 4 Credits (3 Lec, 1 Lab)
Gallatin College Workforce Program.

ETEC 106  AC Circuit Analysis: 3 Credits (3 Lec)
PREREQUISITES: M 111: Technical Math and ETEC 101 or ETEC 105
COREQUISITE: ETEC 113
The intent of this class is to introduce the student to the practical
application of alternating current voltage.
Gallatin College Workforce Program.

ETEC 113  Circuits Lab: 1 Credits (1 Lab)
PREREQUISITES: ETEC 101 or ETEC 105 and M 111: Technical Math
COREQUISITIE: ETEC 106
This is the Circuits laboratory that accompanies ETEC 106: AC Circuit
Analysis.
Gallatin College Workforce Program.

ETEC 245  Digital Electronics: 4 Credits (3 Lec, 1 Lab)
PREREQUISITES: ETEC 101, ETEC 106 or 113, and ETEC 250
This course covers the theory and operation of semiconductor logic
families and their circuits. Laboratory exercises allow the student to design,
implement, and test a wide range of digital circuits using standard logic
families and programmable logic devices.

ETEC 250  Solid State Electronics I: 4 Credits (3 Lec, 1 Lab)
PREREQUISITES: ETEC 106 AND ETEC 113. This course introduces
students to semiconductor materials, and provides the student with an
introduction to basic semiconductor based solid state devices, how these
devices operate, and their applications
