HONR 200 Taking the Pulse of Montana in a Changing World: 3 Credits
PREREQUISITE: Honors College freshman students whom have been accepted for Fall entry. Climate change can be a tricky topic – a 'trigger' phrase in some communities that inspires derision by those skeptical that humans can alter our atmosphere and planetary systems. At the same time, the phrase might inspire an equally heartfelt level of scorn by those promoting (with, at least recently, little success) policies that should spur sharp reductions in human emissions of greenhouse gases so as to minimize the consequences of rising atmospheric greenhouse gas concentrations. Our broadest course objective is to improve students 'climate literacy' on four focal areas of Montana's economy.

HONR 203 Finding Balance: A Climber's Journey: 3 Credits (1 Lec, 2 Lab)
PREREQUISITE: HONR 201US and 202IH, or HONR 301US. (F, Sp) This course sits at the confluence of the bodies somatic experience (as framed through the lens of climbing movement) and socio-political analysis, exploring how 21st century stressors like social media, hyper-partisan politics, global warming, Corona virus, and socio-economic inequity are experienced bodily and in turn how this effects our thinking.
The central purpose of the course is to help students develop a conceptual and hands-on framework that supports both physical and mental wellness. Part philosophy, part physical practice, this course uses somatic modes of attention, putting into practice lessons in readings on Zen, Yoga, mindfulness, dance, and meditation. In addition, we will use climbing as a metaphor to explore "the wilderness within"—examining topics such as the psychology of risk, fear and stress, failure and success, ethics, and the body's lived experience of politics, trauma, and social challenges. This course is open to all students; no previous climbing experience is needed.

HONR 204D Great Expeditions: 3 Credits (3 Other)
PREREQUISITE/CO-REQUISITE: Restricted entrance; HONR 201US and HONR 202IH or HONR 301US. This seminar will provide students with an in-depth look at our basic rights to privacy and personal autonomy under the U.S. Constitution – particularly under the 4th, 5th and 14th Amendments. This course will also offer Honors students an introduction to U.S. Constitutional Law. From search and seizure to Roe v. Wade, students will explore the evolution of fundamental rights as interpreted by the U.S. Supreme Court. The course will also compare federal law to distinctive privacy provisions in Montana’s Constitution.

HONR 275 Extreme Microbiology in Yellowstone: 3 Credits (2 Lec, 1 Lab)
Yellowstone National Park (YNP), one of the world's largest active volcanos, is home to over 14,000 geothermal features which serve as unique ecosystems for many uncharacterized and uncultured extremophilic (extreme-loving) microorganisms. This course will introduce you to the unique Bacteria, Archaea, and Eukarya inhabiting YNP's geothermal hot springs. You will learn how microorganisms influence hot springs, contribute to the cycling of nutrients, and how these unique organisms are used in a variety of biotechnology applications. You will also visit these ecosystems on a 3-4 day field sampling trip, and through sample collection, laboratory work, and analyses you will develop culturing.
