NRSM - Natural Resource Sci & Mgmt

NRSM 101. Natural Resource Conservation. 3 Credits. (3 Lec) F
An overview of soils, water, rangelands and wildlife conservation from the global to the local level. Impacts of human population growth, economics, ethics and agriculture on the sustainability of natural resources will be examined using basic principles of ecology.

NRSM 102. Montana Range Plants. 1 Credit. (1 Lab) F
The laboratory exercises are designed to complement the lectures of NRSM 101. Rangeland inventory and classification methods will be reviewed. Sixty common native and introduced plants will be identified in the field and the classroom.

NRSM 235. Range and Pasture Monitoring. 1 Credit. (1 Lab) F
PREREQUISITE: ANSC 100, NRSM 101, NRSM 102. Methods which can be used by private operators as well as state and federal land managers to identify site potential, inventory forage resources, evaluate range and pasture condition, estimate stocking rates, and measure forage utilization by wildlife and livestock.

NRSM 236. Small Pasture Management. 1 Credit. (1 Lec)
PREREQUISITE: ANSC 100, NRSM 101, NRSM 102 or consent of instructor. Management of small acreages (< 50 acre) to produce forage for horses and non-commercial livestock. Topics include determination of site productivity, plant and animal response to grazing, forage production, protection of water quality and controlling invasive plants. Field trips include operations with successful grazing programs and problem areas.

NRSM 240. Natural Resource Ecology. 3 Credits. (2 Lec, 1 Lab)
PREREQUISITE: NRSM 101 or consent of instructor. Focus on the role of physical and biotic processes on ecosystem function, including natural and managed ecosystems. Emphasis on rangelands, wildlife habitat, watersheds, and disturbed environments.

NRSM 299R. Undergraduate Research. 1-6 Credits. (1-6 Ind)
PREREQUISITE: Consent of instructor and approval of department head. Directed undergraduate research which may culminate in a written work or other creative project. Course will address responsible conduct of research. May be repeated.

NRSM 291. Special Topics. 1-4 Credits. (1-4 Lec; 12 cr max)
PREREQUISITE: Consent of instructor and approval of department head. Directed undergraduate research which may culminate in a research paper, journal article, or undergraduate thesis.

NRSM 430. Natural Resource Law. 3 Credits. (3 Lec) S
PREREQUISITE: Junior standing and one of: WRIT 201, WRIT 221, or HONR 202H; or consent of instructor. Examines major natural resources laws, emphasizing the federal model. A modified case study approach is used to review legislation and related court cases governing natural resources, including water, minerals, timber, range, wildlife, recreation, and wilderness.

NRSM 453. Habitat Inventory and Analysis. 3 Credits. (2 Lec, 1 Lab) F
PREREQUISITE: NRSM 240 or BIOE 370, STAT 216 or BIOB 318, and Junior standing. Focus on collecting, analyzing, and interpreting measures of rangeland resources including plant, animal, soil, and watershed components. Emphasis on sampling objectives, field procedures, monitoring, and evaluation.

NRSM 455. Riparian Ecology & Management. 3 Credits. (2 Lec, 1 Lab) S
PREREQUISITE: ENSC 245IN and NRSM 240 or ENSC 272CS or ERTH 303 or BIOE 370. This course will provide an overview of one of the most ecologically diverse ecosystems in western North America. Students will have the opportunity to study the physical and biological processes which shape and maintain riparian ecosystems. A field laboratory will provide experience in biological and physical monitoring methodologies that are central to land management decisions.

NRSM 490R. Undergrad Research. 1-6 Credits. (1 Ind; 12 cr max)
PREREQUISITE: Consent of instructor and approval of department head. Directed undergraduate research which may culminate in a research paper, journal article, or undergraduate thesis.

NRSM 491. Special Topics. 1-4 Credits. (1-4 Lec; 12 cr max) On Demand
PREREQUISITE: Course prerequisites as determined for each offering. Courses not required in any curriculum for which there is a particular one-time need, or given on a trial basis to determine acceptability and demand before requesting a regular course number.

NRSM 492. Independent Study. 1-3 Credits. (1-3 Ind; 6 cr max) On Demand
PREREQUISITE: Consent of instructor and approval of department head. Directed research and study on an individual basis.

NRSM 494. Seminar. 1 Credit. (1 Sem; 4 cr max) On Demand
PREREQUISITE: Junior standing and as determined for each offering. Topics offered at the upper division level which are not covered in regular courses. Students participate in preparing and presenting discussion material.

NRSM 236. Small Pasture Management. 1 Credit. (1 Lec)
PREREQUISITE: ANSC 100, NRSM 101, NRSM 102 or consent of instructor. Management of small acreages (< 50 acre) to produce forage for horses and non-commercial livestock. Topics include determination of site productivity, plant and animal response to grazing, forage production, protection of water quality and controlling invasive plants. Field trips include operations with successful grazing programs and problem areas.

NRSM 240. Natural Resource Ecology. 3 Credits. (2 Lec, 1 Lab)
PREREQUISITE: NRSM 101 or consent of instructor. Focus on the role of physical and biotic processes on ecosystem function, including natural and managed ecosystems. Emphasis on rangelands, wildlife habitat, watersheds, and disturbed environments.

NRSM 299R. Undergraduate Research. 1-6 Credits. (1-6 Ind)
PREREQUISITE: Consent of instructor and approval of department head. Directed undergraduate research which may culminate in a written work or other creative project. Course will address responsible conduct of research. May be repeated.

NRSM 291. Special Topics. 1-4 Credits. (1-4 Lec; 12 cr max)
PREREQUISITE: Consent of instructor and approval of department head. Directed undergraduate research which may culminate in a research paper, journal article, or undergraduate thesis.

NRSM 430. Natural Resource Law. 3 Credits. (3 Lec) S
PREREQUISITE: Junior standing and one of: WRIT 201, WRIT 221, or HONR 202H; or consent of instructor. Examines major natural resources laws, emphasizing the federal model. A modified case study approach is used to review legislation and related court cases governing natural resources, including water, minerals, timber, range, wildlife, recreation, and wilderness.

NRSM 453. Habitat Inventory and Analysis. 3 Credits. (2 Lec, 1 Lab) F
PREREQUISITE: NRSM 240 or BIOE 370, STAT 216 or BIOB 318, and Junior standing. Focus on collecting, analyzing, and interpreting measures of rangeland resources including plant, animal, soil, and watershed components. Emphasis on sampling objectives, field procedures, monitoring, and evaluation.

NRSM 455. Riparian Ecology & Management. 3 Credits. (2 Lec, 1 Lab) S
PREREQUISITE: ENSC 245IN and NRSM 240 or ENSC 272CS or ERTH 303 or BIOE 370. This course will provide an overview of one of the most ecologically diverse ecosystems in western North America.
