Graduate Assistantships
Assistantship awards are dependent on availability of funding. In general, assistantships are awarded through a faculty adviser. In the event that financial aid is not available, you must have your own financial resources. Other financial assistance is awarded on a competitive basis, with prior academic performance serving as a major criterion.

Application Deadlines
U.S. and Canada
• Fall - May 15
• Spring - October 1
• Summer - February 1

International
• Fall - April 15
• Spring - September 1
• Summer - January 1

Interested students should contact our Academic Programs Coordinator, Department of Land Resources and Environmental Sciences, 334 Leon Johnson Hall, 994-3090, lresinfo@montana.edu

Departmental Facilities
LRES faculty members conduct cutting-edge investigations in state-of-art laboratory facilities, the modern Plant Growth Center, and in the many outstanding and diverse natural laboratories within and beyond the Greater Yellowstone Ecosystem. We utilize public and private lands across the state and region, as well as the MSU Agricultural Experiment Station facilities. Our faculty are participants and collaborators in many centers and institutes within and outside MSU. LRES faculty advisers work with national and international scientific collaborators, and are internationally recognized for their research and instructional excellence.

Environmental Sciences Analytical Laboratory
The department boasts a modern shared analytical facility that houses many state of art instruments for soil, water, air and plant analyses. The facility supports faculty and graduate student research programs, and provides outstanding hands-on experiences and instruction with diverse analytical measurement techniques.

Spatial Sciences Center
LRES faculty and staff are key members of the MSU Spatial Sciences Center. The Global Positioning System (GPS) Laboratory provides GPS base station data for determination of accurate location coordinates for field mapping projects. The Remote Sensing Laboratory offers a state-of-the-art facility with extensive abilities to analyze both digital and analog imagery. Equipment and support for both laboratories facilitate teaching, cooperative research, and land resource inventory and management activities.

Degrees Offered
• M.S. in Entomology (http://catalog.montana.edu/graduate/agriculture/land-resources-environmental-sciences/ms-entomology) (coordinating department)
• M.S. in Land Rehabilitation (http://catalog.montana.edu/graduate/agriculture/land-resources-environmental-sciences/ms-land-rehabilitation)
• M.S. in Land Resources and Environmental Sciences (http://catalog.montana.edu/graduate/agriculture/land-resources-environmental-sciences/ms-land-resources-environmental-sciences)

• M.S. in Land Resources and Environmental Sciences – Online (http://landresources.montana.edu/grad/gradonline.html)

• Ph.D. in Ecology and Environmental Sciences (Interdisciplinary) (http://catalog.montana.edu/graduate/interdisciplinary-other-programs/phd-ecology-environmental-sciences)
