Education Specialist in Adult and Higher Education

Program Objectives
The Education Specialist Degree (EdS) in Adult and Higher Education is a scholarly practitioner’s degree for graduate students who have earned their Master’s degree and intend to work within a postsecondary setting or other adult and community educational areas. The degree emphasizes doctoral level coursework to prepare students for specialized administrative positions where original research is not an expectation.

Program Flow
After acceptance, the student will be assigned a temporary advisor and should then meet with his/her assigned advisor. During the second semester of enrollment, the student will identify a graduate committee chair and committee members, establish and submit their program of study to the Graduate School.

Committees
Candidates will have a three-member committee. The chair and one other member must be from the Adult and Higher Education faculty. The third committee member must have academic credentials in the area of the student’s program of study and be approved by the Head of the Department of Education.

Chairs
The student should carefully select his/her chair after thorough conversations with the Adult and Higher Education faculty members. The chair will serve as the student’s primary advisor. The committee, as a whole, is subject to the approval of the Head of the Department of Education. Chairs and members of a student’s committee are subject to change. In addition, revision to the program of study can be made during the course of study with the chair’s approval.

Comprehensive Examinations
Near the end of completing course work, students will complete a written comprehensive exam or a professional paper. Students are expected to demonstrate mastery of the program of study. The substantive content of the written exam questions will be determined by the chair in consultation with the committee.

Professional Paper
The student choosing the professional paper option will develop a professional paper as his/her summative experience. The professional paper will address a specific issue and contextualized problem of practice using appropriate theory and research-based best practices. Specifically, the professional paper will: 1) frame the problem; 2) review pertinent research literature; 3) identify appropriate methods used to demonstrate the extent of the problem and the efficacy of the solution employed; and 4) provide recommendations grounded in research to solve the problem.

Mode of Course Delivery
All education courses are offered in a variety of modalities including face-to-face in-person courses, synchronous and asynchronous online learning, and a combination of both.

Additional Education Specialist Requirements
The Education Specialist degree must meet the minimum requirements under the For Doctoral Students section on found in the departmental website with the following two exceptions: 1) no dissertation is required, and 2) courses over seven years old may not be included on the graduate program of study.

Additional requirements for the EdS degree are available through the Department of Education. All EdS degree candidates are expected to be familiar with both departmental and The Graduate School’s requirements.

While many courses for the Education Specialist degree are the same as those for the EdD and PhD degrees, it must be clearly understood that admission to one program does not imply admission to the other. EdS
students must formally apply to the EdD or PhD program as well as be in good standing with The Graduate School, and not failed the doctoral comprehensive exam.
