Admission
In addition to the requirements listed in the application requirements and admission policies sections, admission requirements for specific options can be obtained from the department website (http://www.montana.edu/hhd/).

Provisional admission as a graduate student is possible if there is a deficiency in one or more of these areas. Students accepted provisionally will be required to:
1. successfully complete the undergraduate prerequisites for graduate-level classes,
2. successfully complete the specific undergraduate or graduate classes needed for acceptance, and/or
3. take a required course load and earn a specific grade point average while on a provisional status.

Financial Assistance
Teaching assistantships may be available within the Department of Health and Human Development. Assistantships are typically nine-month appointments. Counseling assistantships can include a summer appointment in addition to the academic year appointment. Research assistantships may be available with individual faculty members who have funded grants or contracts. Stipends vary depending on the type of appointment, the requirements of the job, the experience of the applicant, and available funding. See the costs section (https://www.montana.edu/gradschool/costs.html) of the Graduate School website for detailed information on appointment criteria. Assistantships are requested from the student’s home department.

Graduate Programs
Doctoral:
Doctor of Philosophy in Exercise and Nutrition Sciences (http://catalog.montana.edu/graduate/education-health-human-development/exercise-nutrition-sciences/)
