# M.S. in Computer Science

An M.S. student must complete a minimum of 30 credits of coursework beyond the Bachelor's degree.  Students may pursue the Master's degree under a thesis option or a courses only option. For more information, please refer to https://www.cs.montana.edu/masters/index.html (https://www.cs.montana.edu/masters/).

Courses only Master's candidates do not need to take a comprehensive exam. Thesis Master's candidates must present and defend their thesis in a public seminar.  Required courses include:

| CSCI 532 | Algorithms | 3 |
| CSCI 538 | Computability | 3 |
| CSCI 590 | Master's Thesis (thesis option only) | 10 |
