M.S. in Biochemistry

The Departmental Master’s Program is available ONLY to students who wish to obtain a Masters Degree en route to the Doctoral Degree, or in lieu of a terminal doctorate to which they had originally subscribed. Graduate students are attracted to the MSU program in biochemistry because of the strength of the research program, the collaborative nature of the faculty, and the beautiful setting of the new research building in a mountain environment.
Font Notice

This document should contain certain fonts with restrictive licenses. For this draft, substitutions were made using less legally restrictive fonts. Specifically:

Times was used instead of Adobe Garamond Pro.

The editor may contact Leepfrog for a draft with the correct fonts in place.
