Office of Student Success (<http://www.montana.edu/aycss/success/>)

<http://www.montana.edu/aycss/success/>

- **Success Advisors** - Success advisors are expert learning strategists who meet one-on-one with students to teach them tools they can use to improve their academic performance. Topics covered in meetings include:

- Study strategies, test preparation, study habit formation
- time management
- how to improve grades
- prioritization and meeting deadlines
- referral to academic help centers
- other techniques to help keep students on the path to graduation

Students who meet with our student success advisors are more aware of how they learn and how they can better themselves to ensure a successful academic career. Our student success advisors are committed to assisting students and helping them get connected to the campus resources they need to utilize to be successful MSU students.

- **Adventures MSU** - Beginning college is the ultimate adventure and gaining the tools to succeed is the ultimate opportunity. The adventure of making new friends and exploring Bozeman coupled with the adventure of classroom time, water time, and relaxing in the great outdoors makes Adventures MSU an adventure you won't want to miss. We'll ensure your first semester is a huge success with learning management presentations and career development principals taught by our expert staff. Early move-in and peer connections in this three-day adventure plus additional self-reflection and exploration papers throughout the semester make this jump-start opportunity a 1 credit class.
- **Beginning College Survey of Student Engagement (BCSSE)** - Every entering freshman takes this survey, administered by the Office of Student Success, at their orientation session. We strongly suggest that students set up an appointment with a student success advisor to interpret the results of this survey. The survey results teach students how they can maximize their academic performance. Student success advisors help students learn what it takes to be a successful MSU student.
- **Early Alert Program** - Students are referred to our office in a number of different ways, but most often through the Early Alert System. When faculty members are concerned about an individual student's classroom performance, attendance, or course progress, they can submit the student's name to our office through the Early Alert System. The Office of Student Success personally connects referred students with student success advisors who provide them with tools to improve their performance and help them formulate a success plan for the remainder of the semester. Advisors can also answer questions about how academic performance may affect financial aid, living arrangements, and academic standing and point students towards the right resources to address those concerns and achieve greater success at MSU.
- **Workshops** - The Office of Student Success offers free workshops that help students become organized, learn the ins and outs of MSU, and connect with other students. These workshops cover timely topics related to college success.
- **SmartyCats Tutoring** - The Office of Student Success offers one-on-one and small-group online and in-person tutoring for hundreds of courses through the SmartyCats Tutoring Program. SmartyCats tutors are an invaluable resource for students who need extra help or who seek to maximize their learning as required for their programs and career goals. SmartyCats tutors help students clarify points from lectures, labs, discussions, and assigned readings. Free drop-in tutoring and common hour exam study sessions are also available. To learn about the tutoring program, please visit www.MSUSmartyCats.com (<http://www.msusmartycats.com/>).

This two-hour workshop is offered at the beginning of each semester, with the purpose of providing students with the tools they need to succeed at MSU. Attaining an appropriate balance between student learning, student engagement and student development underlies all US 103 instruction and activities.
