Master of Science in Mathematics (Mathematics Education Option)

The MSMME program emphasizes the teaching and learning of secondary mathematics and offers a blend of courses addressing key topics in mathematics content and pedagogy.

The MSMME curriculum incorporates problem-based and active learning and aligns with the NCTM Principles and Standards for School Mathematics as well as the Common Core State Standards for Mathematics. The 30-credit-hour program includes four required core content courses, two required pedagogy courses from a choice of four, and a variety of elective courses. Embedded in the required coursework are classroom-based research projects that address specific challenges in teaching, investigate new instructional strategies, or allow teachers to design, teach, and assess lessons in a specific content area.

Completing the program typically requires taking a series of online courses over two academic years and attending at least one (required) three-week summer session in Montana. Courses are offered on the Bozeman campus each summer. Additionally, two online courses are offered each summer, fall, and spring. All course credits may be applied toward teacher license renewal.

Summer Session 2017, which begins June 12 and ends July 28 for Mathematics Education, will include the following courses:

On-Campus Courses
June 26 - July 14, 2017
Enroll through the Office of the Registrar
M 524 3

June 26 - July 14, 2017
Enroll through the Office of the Registrar
M 419 undefined
M 519 undefined

Distance Delivery Courses
June 12 - July 28, 2017
Enroll through the Office of the Registrar
M 518 3
M 520 3
