Attached is a curriculum document that gives a "snapshot" of the curriculum, draft of a Degree Audit Form with information on course schedules and prerequisites, and a by semester and hour complete course program. All prerequisites are included in the program and the course schedule has been designed with no scheduling conflicts. This proposed curriculum was developed first in the concept stage by the Ranching Systems working group using survey results and input from numerous interviews with students, ranch managers, owners, and ranching systems companies. It was refined with input from Drs. Anton Bekkerman, Ag Economics and Economics; George Haynes, Ag Economics and Economics; Virginia Bratton, College of Business; Bok Sowell, Animal and Range Sciences and Patrick Hatfield, Animal and Range Sciences.
