

Developmental Education

The Developmental Education program offers individual courses that prepare students for college-level work in math, writing, and college studies.

High quality instruction, small class sizes, and out-of-class support are hallmarks of the Developmental Education program.

Credit from developmental coursework (below 100-level) does not count as college-level credit and does not meet graduation credit requirements for diploma or degree programs. Grade points earned in this course are not included in a student's grade point average calculation. Developmental courses may be used to determine financial aid eligibility.

Courses taught include:

COLS 100	Effective Academic Practices	3
COLS 101US	First Year Seminar	3
COLS 103	College Learning Strategies	1
WRIT 080	Building Basic Writing Skills	4
WRIT 001	Co-Req Support for WRIT 101W	2
M 088	Mathematical Literacy	4
M 005	Co-Req Support for M 105Q	1
M 063	Foundations of Mathematics	1
M 090	Introductory Algebra	4
M 021	Co-Requisite Support for M121Q College Algebra	2
