Political Science

Bachelors of Arts in Political Science

The study of Political Science gives the student an understanding of politics, government, and public affairs. Political Science graduates develop a coherent and reasoned knowledge about governance, political behavior, and public administration. This degree prepares students to be part of an informed national and global citizenry. Political Science provides an excellent academic background for students preparing for careers in law, public service, journalism, non-profits, and many private sectors jobs. Students are encouraged to participate in our internship program to practice and expand skills gained in the classroom. The internship program gives students the opportunity to earn credit for on-the-job experience with government agencies, Members of Congress and the state legislature, and non-profit agencies. Students choose one of the four options offered for an area of emphasis, and the options offered are Political Institutions, International Relations, Policy and Analysis and Political Theory.

Requirements for a degree in Political Science include:

1. Completion of five Political Science foundation courses with a grade of “C” or better;
2. Breadth requirement: Taking one course in each of the four options, including Political Institutions, International Relations, Policy and Analysis and Political Theory;
3. Specialization: Choosing one option and taking two more courses in that option along with an associated skills class;
4. Completion of a senior research project (PSCI 499R);
5. Completion of MSU general graduation requirements of 120 credits, including 42 upper division credits, and the MSU core.

Political Institutions Option (p. 1)

For students with an interest in political institutions, including legislative, executive and judicial branches, who wish to obtain a sound background in how political systems operate. This option includes courses on the American political system. The skills requirement is Applied Political Analysis (PSCI 310).

International Relations Option (p. 1)

Offering a sound background in international relations theory, international institutions, international policy and international political economy. The skills requirement is proficiency in a foreign language (two semesters of university level foreign language, CLEP, or existing bilingualism).

Policy and Analysis Option (p. 1)

This option develops skills in the analysis of public policies and knowledge of the policy process. The skills requirement is Applied Political Analysis (PSCI 310).

Political Theory Option (p. 1)

For students who wish to pursue key questions of political theory, including questions about rights, identity, virtue, gender, knowledge, and justice, among others. The skills requirement is Introduction to Logic (PHL 236Q).

**Total Program Credits:** **120**

A minimum of 120 credits is required for graduation; 42 of these credits must be in courses numbered 300 and above. No political science course may be counted in more than one upper division sub-field requirement. Political science majors must fulfill Social Science Inquiry (IS) and Diversity (D) University Core requirements outside of the PSCI rubric. Before a political science major may enroll in any upper division political science course, the student must have achieved a grade of "C" or better in all lower division courses required for the political science major. To be credited toward graduation, a student must earn a "C" or better in any upper division political science course required for the major.
