

# CJLE - Crim Justice Law Enforcement

## **CJLE 105 Police Patrol Procedures: 3 Credits (3 Lec)**

(Su) Law Enforcement student or permission from instructor required. This course is an overview to public safety and the history of law enforcement in the American context. It also includes the major operations and functions of contemporary law enforcement alongside practical exercises and insights into interacting with diverse populations.

## **CJLE 106 Basic Police Firearms Training: 2 Credits (2 Lab)**

(Su) Law Enforcement majors or permission from instructor required. This course gives prospective law enforcement officers the foundational training necessary to safely and effectively use firearms. Students learn the relevant laws and statutes governing firearms and use of force, the basic components of firearms, and how to operate them.

## **CJLE 130 Practical Scenarios for Law Enforcement: 2 Credits (2 Lab)**

(Su) Law Enforcement majors or permission from instructor. This course provides students with tactics and approaches relevant to potential law enforcement scenarios, with a focus on conducting emergency responses, building searches, vehicle stops, and DUI detection and processing. Students gain practical experience given scenarios that require different tactics.

## **CJLE 140 Patrol Operations: 3 Credits (1 Lec, 2 Lab)**

(Su) Law Enforcement students only. This course provides an introduction to the patrol methods and techniques used by law enforcement officers. Types of patrols, their functions, and types of calls while on patrol are emphasized. The use of a patrol vehicle is also emphasized.

## **CJLE 150 Life Saving Skills: 1 Credits (1 Lec)**

(F) Law Enforcement majors or permission from instructor. This course covers a range of life-saving techniques and practices necessary for effective law enforcement work. The course covers life-saving skills law enforcement officers can utilize during specific occupational situations as well as to ensure their own safety and well-being.

## **CJLE 160 Communications for Public Safety: 1 Credits (1 Lec)**

(Su) Law Enforcement students or permission from instructor. This course covers communication in law enforcement and public safety from several angles, with a focus on making ethical communication decisions. Students will learn written communication skills for report writing and verbal communication skills for investigations, de-escalation, negotiation, and court testimony.

## **CJLE 170 Montana Criminal Code: 2 Credits (2 Lec)**

(Su) Law Enforcement students only or consent of instructor required. This course provides an overview of the criminal code for the State of Montana. Students learn key concepts, definitions, and specific details about some of the most commonly used offenses in the criminal code.

## **CJLE 180 Health and Wellness in Everyday Policing: 2 Credits (2 Lec)**

(F) Law Enforcement majors or permission from instructor. This course is designed around issues related to fostering healthy outcomes for both law enforcement officers and their families. Specific modules focus on work-life balance, physical and mental health, and resiliency for a high-stress occupation.

## **CJLE 209 Criminal Investigation: 3 Credits (2 Lec, 1 Lab)**

(Su) Law Enforcement students only or consent of instructor required. This course provides an overview of the broad scope of criminal investigation with a focus on interviews and interrogations, crime scene management, and evidence collection. Successful students will learn appropriate investigative tactics given a range of potential circumstances and encounters.

## **CJLE 212 Defensive Tactics: 2 Credits (2 Lab)**

(Su) Law Enforcement students only or consent of instructor required. This course provides an overview and specific training in defensive tactics for law enforcement officers. This includes searches, control and survival strategies, and the appropriate use of chemical agents and weapons. Students will employ these defensive tactics in hypothetical practical scenarios.

## **CJLE 298 Internship: 6 Credits (6 Other)**

(F) Law Enforcement students only or consent of instructor required. This course gives students 20+ hours/week of experience in the daily operations of law enforcement agencies. Monitored experiences will include observing and applying best practices in law enforcement environments while utilizing skills and knowledge acquired in previous law enforcement courses.
