

# Global and Multicultural Studies Option

The Global and Multicultural option offers students a broad perspective on international and American cultural, ethnic, and gender issues spanning a wide range of disciplines. Students will select 27 credits (18 of which need to be 300 or 400 level) from an approved list of global/multicultural courses spanning a wide range of disciplines. In addition, students in this option select a specific area studies focus (e.g. Latin America, Asia, Europe, Native American, or Women's Studies) in which they take 12 additional credits (6 of which need to be 300 or 400 level) to provide deeper understanding of that region or field of study. In addition, students are required to achieve competence, at an intermediate level, in a foreign language appropriate to their field of area studies. Students in this option are encouraged to study abroad in a region appropriate to their field of area studies. Credits earned abroad may, with the approval of the Program Director, be substituted for global/multicultural or area studies courses as appropriate. LS 499R may overlap with Core. Proposed substitutions must be submitted in writing to the program advisor or director.
